- Decided to stick with Google Sign-in
- Axel pushed working sign-in and default form with default activity pages
- Assigned new sprint goals for everyone

Sprint 3 Goals

Marsol
- Create Settings page on main landing page that allows the user to change their profile information
- Research Fingerprinting **AND** implementation

Alex
- Beautify landing page and beautify sign-in
- Work with Noah for Web-Portal

Lauren
- Research Facial Recognition

Axel
- Cleanup Sign-in
- Design DB with setup

Noah
- Design and setup of Web-portal fully completed
- Hookup Web-portal with DB

Anthony
- Testing sign-in and add constraints to sign-in such as ("the user cannot put numbers for a first name") etc.
